Here are the Prerequisites for the Online Test that the students have to follow :

- An online test link on the registered email id will be sent to you a day before the scheduled date **via 'Calyxpod'** however the test will start only at the scheduled time for the respective tests. **(Please check your Inbox/Spam for the email)**
- **For taking the test, you can directly click on Take Assessment. There is no requirement to login into the platform.**
- A laptop/desktop with an active web camera and mobile phone with front camera is mandatory to take the test. Though laptop/desktop is advisable.
- Location and Webcam permission is mandatory. You will be proctored throughout the test.
- Please ensure that you are logged out from all the QT and Online Test Sessions otherwise your test will not run.
- **The test will not run on Windows 7.**
- If you are not able to start the test through any of the above mentioned ways, **please take the test on your mobile phone through Google Chrome.**
- The test runs on any Modern browser however, Google Chrome Browser is recommended as it is a light browser. Please download the same or update your existing browser. The test will not run on Mozilla Firefox.
- If you connect with the broadband, a minimum internet speed required is 512 Kbps and data speed required is minimum 3G for mobile. However, 1 Mbps and above is desired.
- You should have data of at least 200 MB in order to take the test. If you are taking multiple tests, 1 GB data is advisable.
- You are advised to keep all the browsers, device apps or notifications disabled during the test. It will help you to get the optimum speed of the internet. **Keeping other browsers or apps open or switching to any other tab during the test may lead to violations and the test will be terminated.**
- **For any query during the test, you can mark an email to feedback@calyxpod.com or call on the helpline number - 01141179695.**
- Once the duration of the test is over the test will automatically stop.
- It will be a purely technical test based on the technical framework. Please refer to the job description for more details.
- You should use the same email address to take the test on which they will receive the test link.
- You are advised to read the instructions carefully before starting the test.
- You should be logged in 15 mins before the test scheduled time.

- **Please do all the checks recommended in the system & connectivity test link, once today & again half an hour before the test.** This will lead to facing lesser issues during the test.

- If you're unable to view the questions in the test, you are advised to follow the below mentioned steps:-

a) Try to refresh the page.

b) If refreshing doesn't help, please clear the browser, close the test & click on the test URL again. **Please don't click on Finish the test.** Finding a solution once you have ended the test would not be possible.

- **Students are requested to wear appropriate clothes while taking the test and their webcam should be in working condition.**
